

Statement

EBF statement on the Juncker Commission

The new composition of the European Commission, as presented by Commission President-elect Jean-Claude Juncker earlier today, makes it clear that restoring the European economy indeed will be a key priority for the Juncker team. Growth and jobs rightfully deserve to be at the heart of the EU's policy agenda.

As European Banking Federation we particularly welcome the integrated composition of the new European Commission and look forward to supporting a speedy return to a healthy European economy.

About the European Banking Federation:

Launched in 1960, the European Banking Federation is the voice of the European banking sector from countries in the European Union and the European Free Trade Association. Members of the federation are 32 national banking associations. The EBF represents the interests of some 4,500 banks, large and small, wholesale and retail, local and cross-border financial institutions. Together these banks account for over 80 percent of the total assets and deposits and some 80 percent of all bank loans in the EU alone. Website: www.ebf-fbe.eu
